

# First Time using Pepper

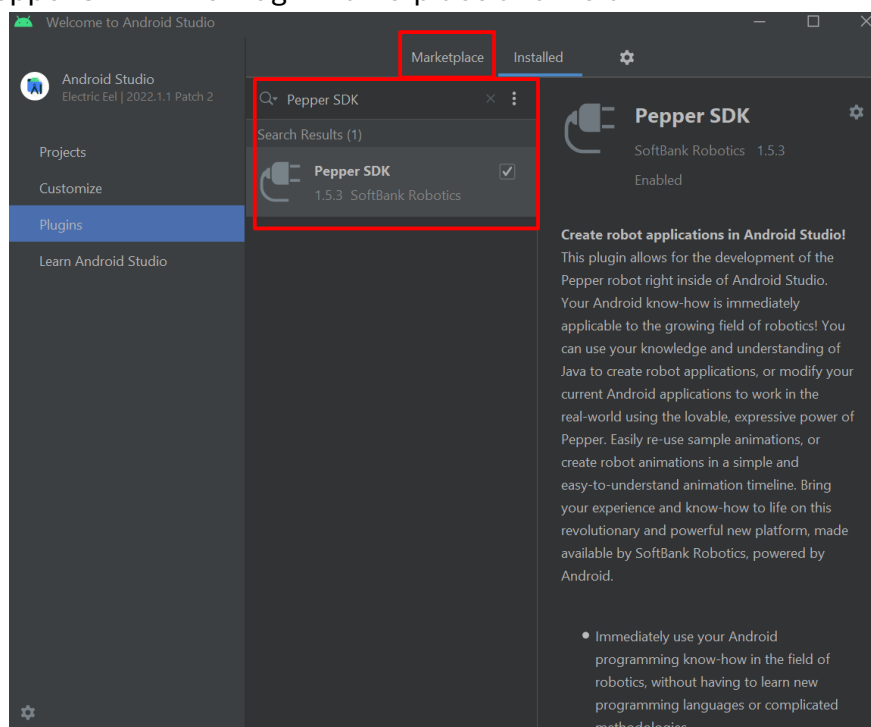

Download link for Android Studio: <https://developer.android.com/studio/archive>

Install: **Android Studio Electric Eel | 2022.1.1 Patch 2 February 27, 2023**

Pepper SDK Plugin:

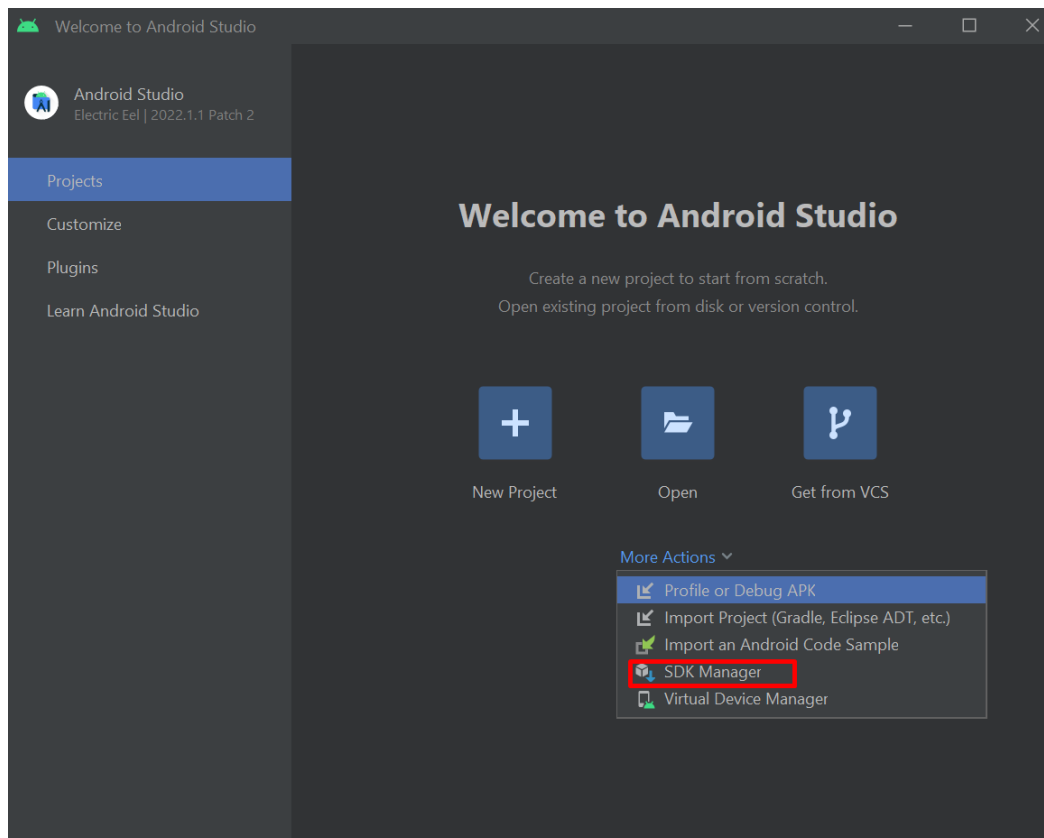

Find the Pepper SDK in the Plugin Marketplace and install it

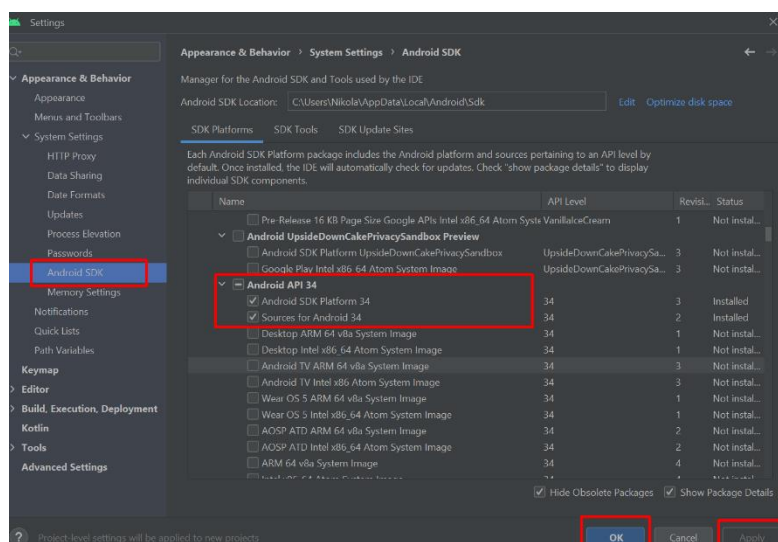

Note: If you can't find the Pepper SDK, follow this link to download the SDK and download it from your disk, but install the **1.5.3 Version**

[https://qisdk.softbankrobotics.com/sdk/doc/pepper-sdk/ch1\\_gettingstarted/installation.html#manual-pugin-install](https://qisdk.softbankrobotics.com/sdk/doc/pepper-sdk/ch1_gettingstarted/installation.html#manual-pugin-install)

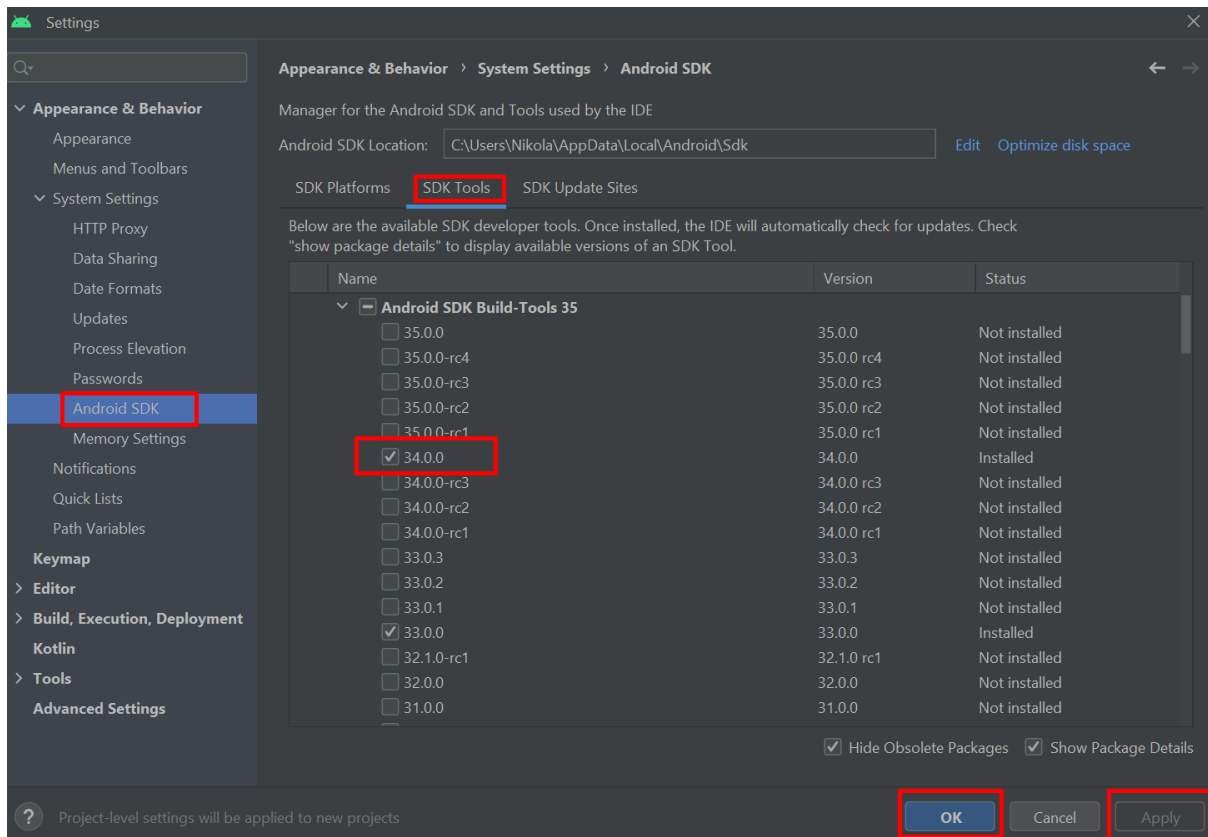

## Android Studio SDK:

Android SDK > select **Android API 34** > Apply > OK

SDK Tools > select **34.0.0** > Apply > OK

For a better instructions follow this link to the official site from the Pepper developers:
